Risk Assessment Tables

Consequence Criteria

The descriptions below are indicative only and provide a guide to relative consequence.

Rating	Score	Criteria	Injuries	Financial Impact	Operational Impact
Insignificant	1	 Unlikely to have an impact on the University's public image Minor injuries Minimal impact on operations Minimal financial loss (less than \$100,000) 	Minor injuries	<\$100,000	Minimal impact on operations
Minor	2	 Limited unfavourable media coverage Injuries requiring on campus medical treatment Short-term disruption to core activities (days) Long-term disruption to non-core activities (weeks) Financial loss not covered by insurance (\$100,000 - \$100,000) 	Injuries requiring on campus medical treatment	\$100,000 Financial loss not covered by insurance	Short-term disruption to core activities (days) Inconvenient delays
Moderate	3	 Unfavourable media coverage Injuries requiring off campus medical treatment Significant disruption to core activities (days) Financial loss not covered by insurance (\$100,000 - \$500,000) 	Injuries requiring off campus medical treatment	\$100,000 - \$500,000	Significant disruption to core activities (days)
Major	4	 Widespread negative media coverage Legal action involving criminal charges and/or civil suits with possible fines and costs exceeding \$5000,000 Single death and/or multiple injuries Short term cessation of core activities (weeks) Financial loss not covered by insurance (\$500,000 - \$1 million) 	Extensive Treatment (single death and / or multiple injuries)	\$500,000 - \$1 million Financial loss not covered by insurance	Short term cessation of core activities (weeks)
Catastrophic	5	 Government or external agency instigates an inquiry or legal action. Significant damage to the University's reputation Widespread, ongoing, negative media coverage Legal action involving major criminal charges and/or civil suits with possible fines and costs exceeding \$1 million Multiple deaths and injuries Severe environmental damage Long term cessation of core activities (months) Destruction or long-term unavailability of infrastructure, systems and resources directly impacting operations Financial loss not covered by insurance (more than \$1 million) 	Multiple deaths and injuries	\$1 million + Financial loss not covered by insurance	Long term cessation of core activities (months) Destruction or long-term unavailability of infrastructure, systems and resources directly impacting operations

Likelihood Criteria

Rating	Score	Description	As a guide	
Almost Certain	Α	High likelihood of risk event happening.	Several times within the next year	
Likely	y B A risk event is likely to occur.		More than once in next 12 months	
Moderate	С	Would not surprise if risk event occurred.	Within next 1 – 4 years	
Unlikely	D	The risk event could occur at some time but is unlikely.	Once in 5 years	
Rare E Within the realms of possibility but extremely u		Within the realms of possibility but extremely unlikely to occur.	Once in 10 years

		Likelihood					

Recommended Action Guide:

Abbrev	Action Level	Descriptor
С	Critical	The proposed task or process activity MUST NOT proceed until the supervisor has reviewed the task or process design and risk controls. They must take steps to firstly eliminate the risk and if this is not possible to introduce measures to control the risk by reducing the level of risk to the lowest level achievable. In the case of an existing hazard that is identified, controls must be put in place immediately.
Н	High	Urgent action is required to eliminate or reduce the foreseeable risk arising from the task or process. The supervisor must be made aware of the hazard. However, the supervisor may give special permission for staff to undertake some high risk activities provided that system of work is clearly documented, specific training has been given in the required procedure and an adequate review of the task and risk controls has been undertaken. This includes providing risk controls identified in Legislation, Australian Standards, Codes of Practice etc. A detailed Standard Operating Procedure is required and monitoring of its implementation must occur to check the risk level
M	Moderate	Action to eliminate or reduce the risk is required within a specified period. The supervisor should approve all moderate risk task or process activities. A Standard Operating Procedure or Safe Work Method statement is required
L	Low	Manage by routine procedures.
VL	Very Low	Manage by routine procedures.
